01

Opening Impact

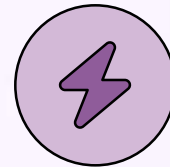

ZapPay

Fueling India's Digital Drive

Instant QR payments at petrol pumps, eliminating cash hassles, queues, and fraud.

Our vision: to digitize **85,000+ outlets** nationwide.

Zero-Wait Experience

Autopay convenience for a seamless drive-in and drive-out journey.

Enhanced Security

Vehicle-linked tracking and digital receipts for complete transparency and trust.

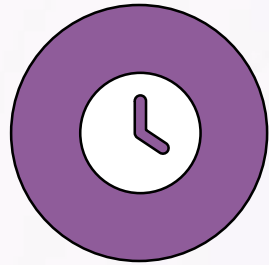

Scalable Pilot

Starting with a pilot across **10-20 pumps**

The Fuel Retail Pain Points

Operational Inefficiency

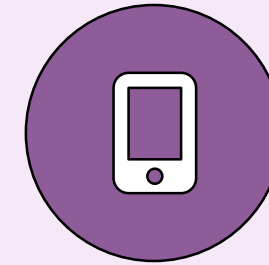

Drivers waste minutes counting change while staff handle soiled cash, causing queues that spill onto roads.

UPIs and QR payments are often obstructed by the internet connections, leading to delays.

Revenue Leakage

Shrinkage and pilferage silently erode the **3-5%** dealer margin, threatening profitability.

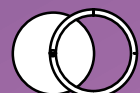

Digital Gap

Urban pumps selling **8,000-20,000 litres daily** lack swift digital rails, which can be automated

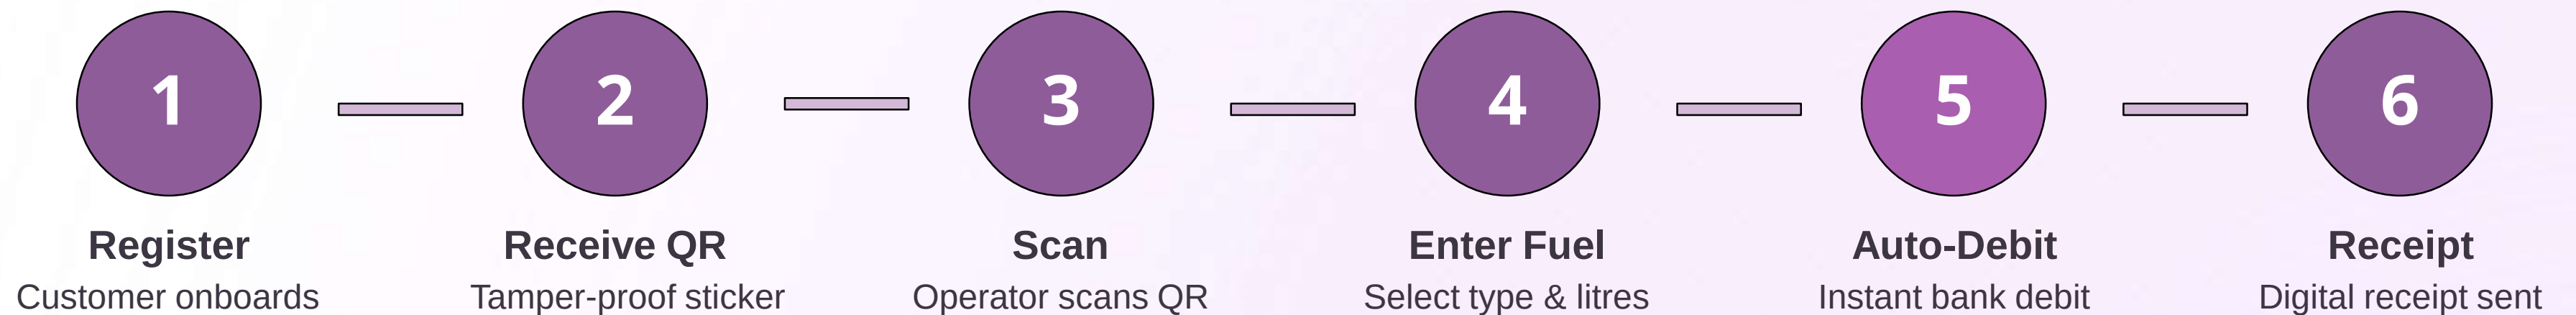

02

Solution & Journey

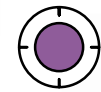

The 6-Step Autopay Journey

The entire loop is completed in under **15 seconds** , with no POS hardware and zero cash touch, on fully RBI-compliant UPI rails.

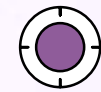

Go-To-Market Strategy: From Pilot to National Rollout

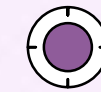

Phase 1: Pilot

Test in **10-20 pumps** in Chhattisgarh and onboard at least 100 customers 1st month

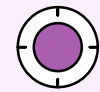

Phase 2: Expansion

Replicate success across Tier-2 cities with independent operators.

Phase 3: Marketing Blitz

Launch marketing campaigns and tie up with companies to accelerate adoption.

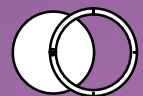

National Rollout

Target **0.86M litres** and **₹4.3L daily revenue** at a 0.5% txn fee.

03

Market & Economics

The Micro-Economics of a Single Pump

A look at the daily economics for an average urban petrol pump and ZapPay's value proposition.

Current State (Avg. Urban Pump)

Daily Volume: **12,000 L**

Gross Profit: **₹40,800**

ZapPay

With ZapPay (Target)

Target Volume: **2,400 L** (20%)

Txn Value: **₹2.4 L**

ZapPay Revenue: **₹1,200** (0.5%)

This translates to **₹4.4 L annually per pump** , with revenue compounding as loyalty rises and cash handling costs disappear.

India's Fuel Retail Market

A massive, untapped digital opportunity. Urban pumps drive around **8.5 M litres** of cashless sales daily, creating a dealer profit pool of **₹87.5L to ₹2.2Cr** every 24 hours.

Market Scale

55,000 total pumps, **40,000** in urban areas.

Dealer Margins

₹2.5-₹4.4 per litre, yielding a **3-5%** gross commission.

ZapPay's Revenue Potential

Capturing just **10%** of the market's cashless volume unlocks significant revenue for ZapPay.

Target Volume

0.86M Litres

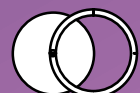

Daily Revenue (0.5% Fee)

₹4.3L

04

Vision & Close

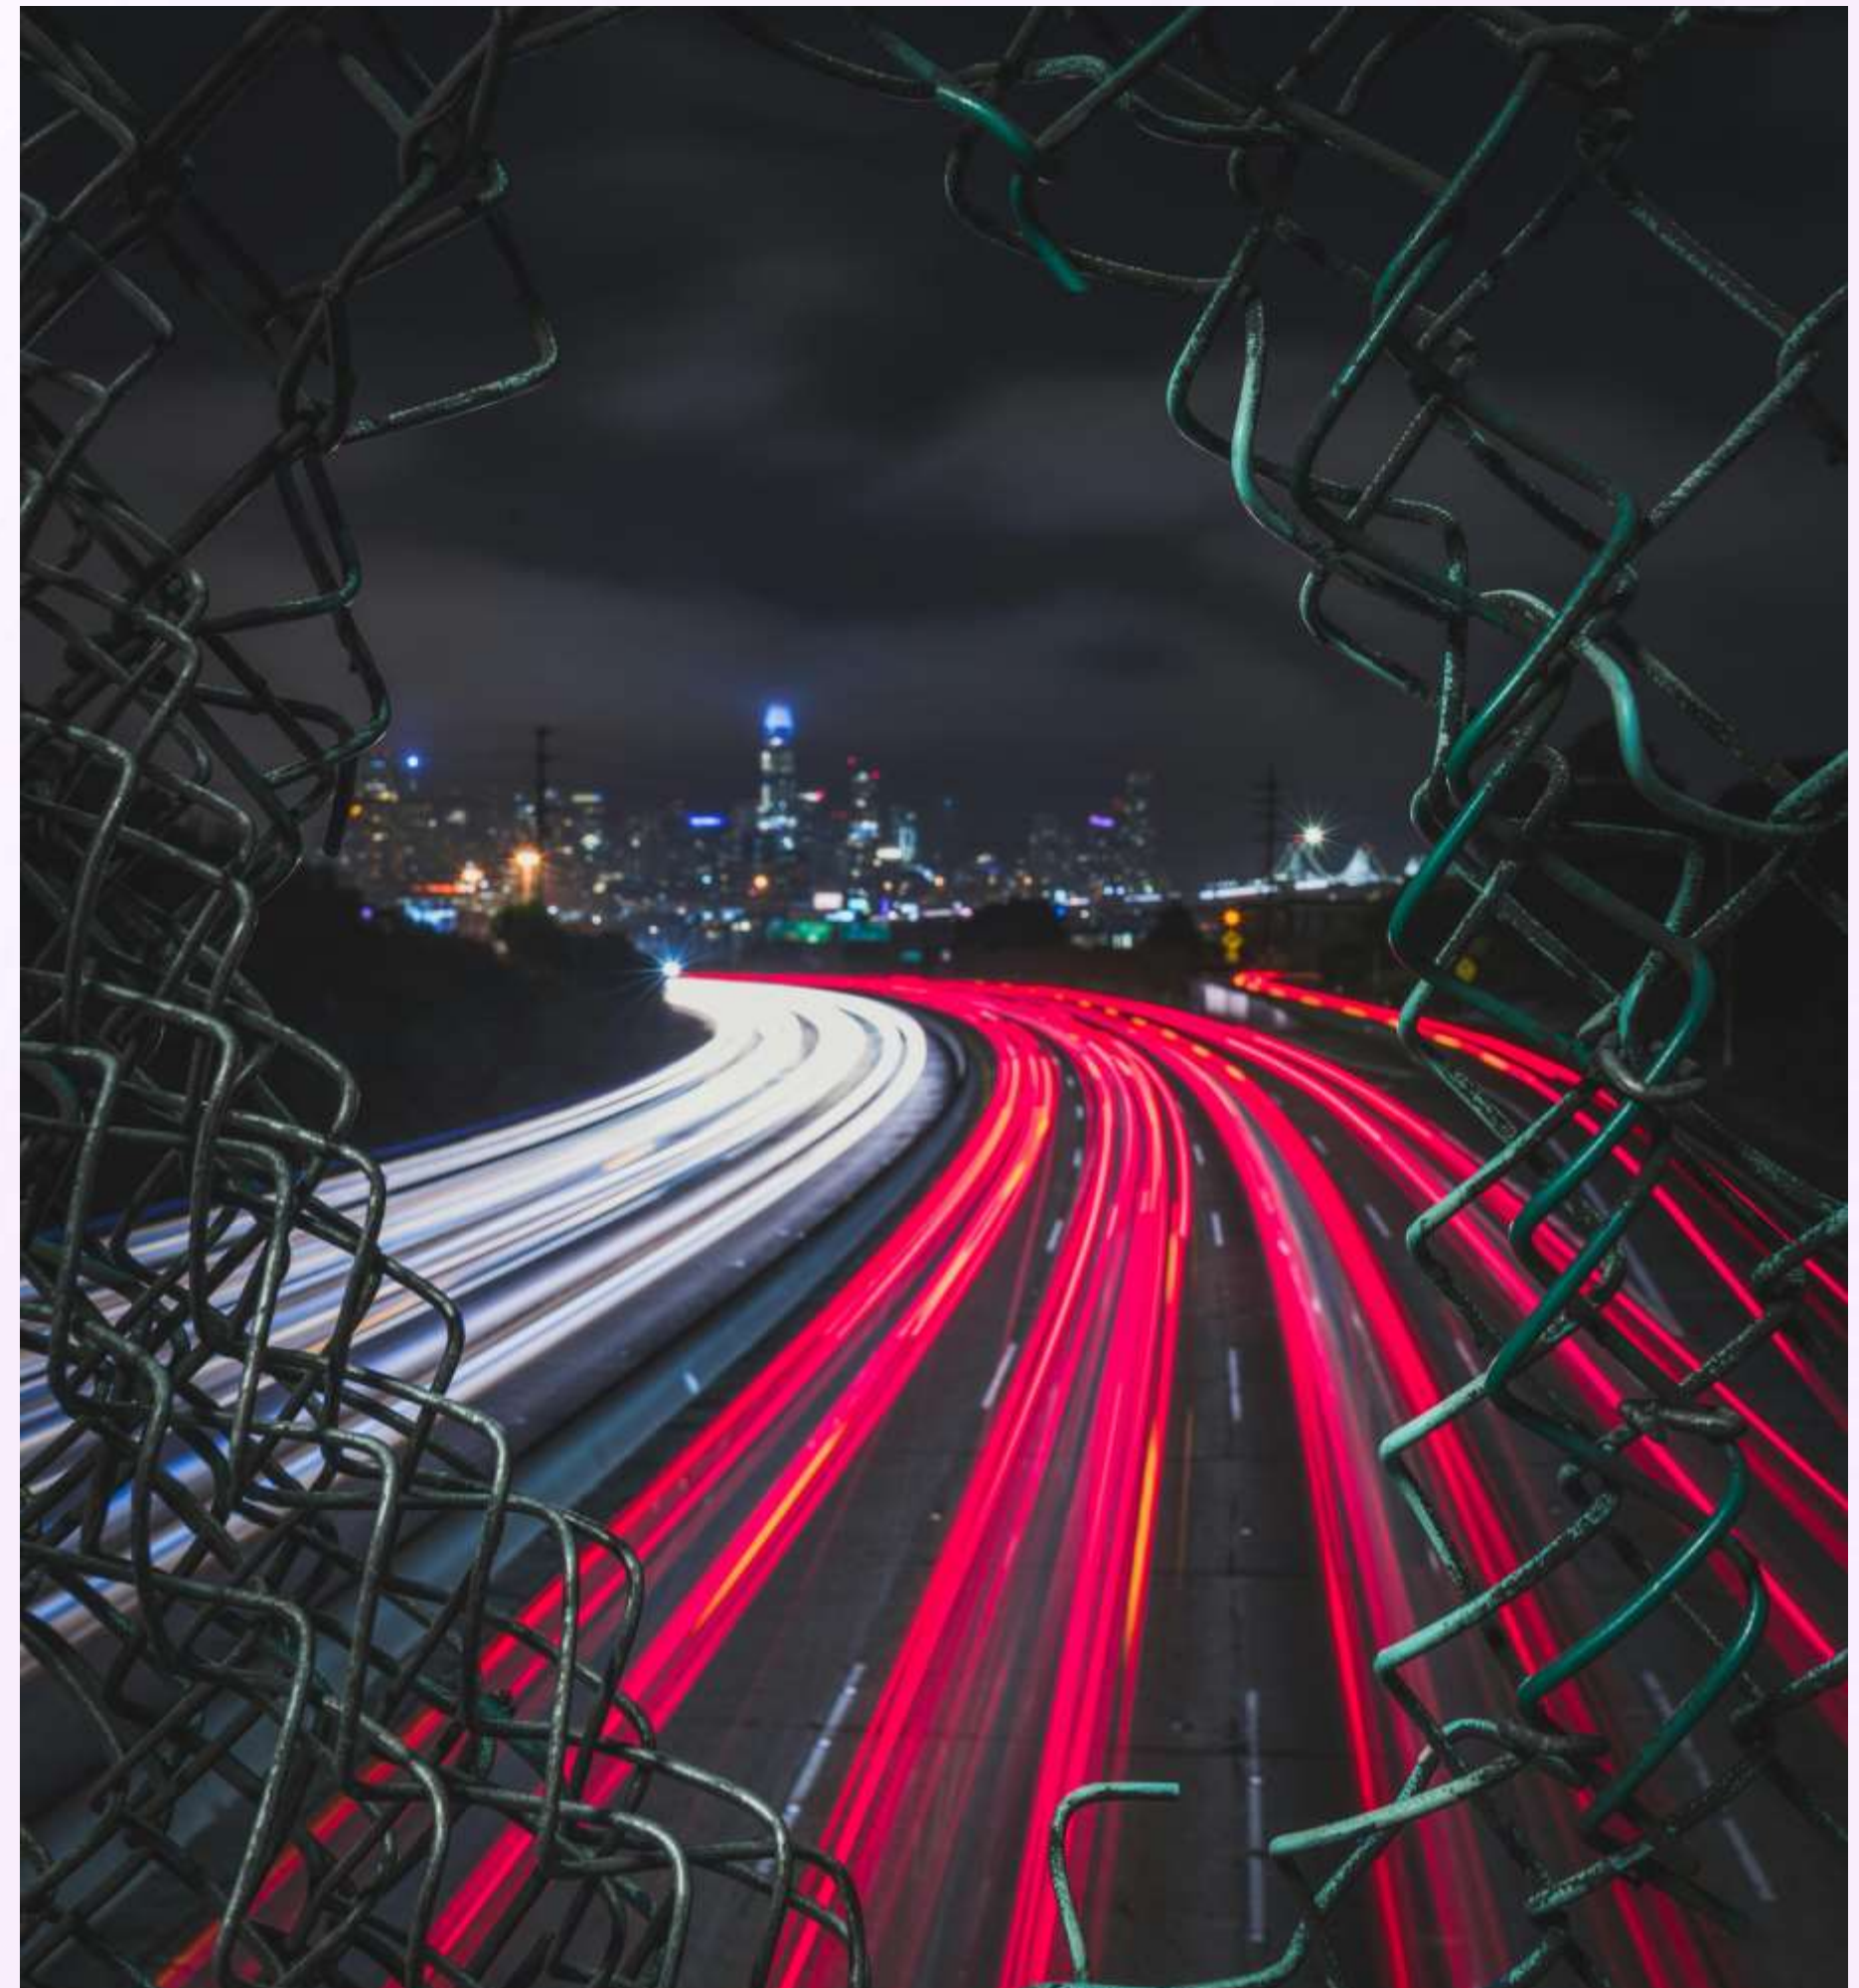

Mission: A Zero-Wait, Zero-Cash India.

ZapPay is more than a payment solution; it's a vision to fundamentally transform the fuel retail landscape. We will eradicate queues, empower **85,000 dealers** with frictionless digital commerce, and create a vehicle-linked payment identity for every driver.

Every scan strengthens a nationwide ecosystem where fuel, fleet, and finance converge, paving the way for future innovations like carbon credits and personalized loyalty currencies.

THANK YOU

Team ZapPay
